

There's a Going Away Party and You're Invited!!!

We're saying goodbye to **B-5 Fixative with Mercury**

Don't be sad...you won't miss the personal toxicity, the environmental hazards & the strict fixation limitations...Those will all just be bad memories...

We gotcha covered with our **AZF Fixative!** We've been supplying this proven proprietary formula for well over a decade to labs all over the US. It continues to be used because of its:

Excellent Morphology

Ease of Use

Minimal, easy, & cost effective disposal

No Mercury Content

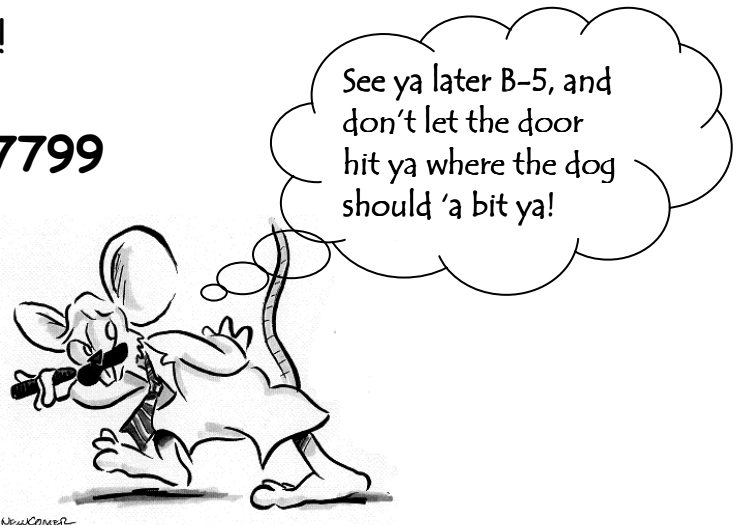

Available in vials and bulk packaging

RSVP: Call us for our informative Technical Memo and a **Free Sample** to try!

800-383-7799

Be part of H2E's project in eliminating the use of Mercury in the Healthcare Industry*
