

AZF VIALS ARE BACK!

That's right...We have been working hard behind the scenes to find a suitable vial to bring back the beloved AZF vials and **WE DID IT!!!**

We put this vial to the test and it didn't leak...PERIOD.

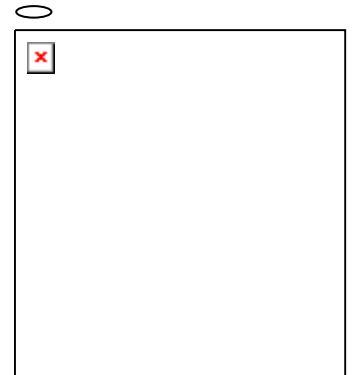

We sent the vial with AZF in it on air shipments, traveling upside down on the lid across the USA and freezing it! This vial is tough and passed with honors!

(I just wish they built a coffee mug for traveling in the car this well...we'll put our R&D team on that one later)

The AZF You have come to Trust:

- EXCELLENT MORPHOLOGY & ANTIGENICITY
- NO MERCURY CONTENT
- MINIMAL, EASY, & COST EFFECTIVE DISPOSAL
- EASE OF USE
