

**YEP...QUALITY CONTROL SLIDES ON
SUPERFROST® PLUS SLIDES...WE CAN DO THAT!**

In addition to our current line of quality control slides, we are going to begin to produce a few quality control slides on the Superfrost® Plus slides!

We use a very high caliber charged slide for our quality control slides, but it is not the Superfrost® Plus brand.

And since we are getting more requests for our quality controls to be on Superfrost® Plus slides from some of our auto stainer customers, we thought we would take action.

Please note that you can request any type of custom order for our control tissue (i.e. to be put on a Superfrost® Plus slide or another slide of your choice), but there will be a delay. **SO PLAN AHEAD!** We hope to make your life a little easier.

(This is a work in progress, so call for availability of the quality control slide you are interested in)

SO TAKE A DEEP BREATH AND RELAX!
You can have it your way...

<u>Description</u>	<u>Volume</u>	<u>Order #</u>	<u>Price</u>
