PRICING

All prices are quoted in U.S. dollars. Newcomer Supply reserves the right to revise prices without notice. Orders will be invoiced at the price in effect on the day the order is processed. Quantity and standing order discounts are available upon request. Custom orders are subject to additional charges. Pricing does not include freight, handling charges, or taxes of any kind. Customers are responsible for paying any applicable taxes once invoiced by Newcomer Supply, or shall provide up to date and accurate tax exemption certificates.

SHIPPING

In the UNITED STATES, orders are processed and shipped usually within 3 working days from receipt of the order for In Stock inventory. *Made to Order* items are processed and shipped within 1-2 weeks. *Out of Stock, Custom, and Special Request* orders ship within 2-3 weeks. If there is an unusual delay, we will notify you. Orders are shipped F.O.B. Middleton, WI, or other point of shipment pre-pay via common carrier. Third party freight accounts are accepted. If an "H" appears in the "Price" column in the website or catalog, a carrier mandated hazardous chemical charge may apply. Due to certain IATA restrictions, Newcomer Supply reserves the right to refuse to ship hazardous chemicals by air. Newcomer Supply does not accept hazardous chemical returns.

TERMS

Payment terms are net 30 days. Overdue amounts are subject to carrying charges of 1.5% per month. We accept payment by check, wire transfer, EFT, Visa or MasterCard. We reserve the right to require prepayment by those customers that cannot meet our terms. Shipments will not be made to customers with a "Past Due" invoice pending. A handling fee may be applied per order. Credit memos will be honored for 6 months. No cash refunds.

RETURNS

Contact Newcomer Supply prior to returning any product. If you have a problem with a product or shipment, call us within five business days of the issue. Returns without a Return Authorization "RA" will not be accepted. Returns must be packaged as received and delivered undamaged within two weeks of RA date. If you ordered a product in error and request a return, a 25% restocking fee is applicable. Customers are responsible for return shipment costs. Original freight costs will not be credited. All custom orders are final, no returns. Newcomer Supply does not accept hazardous chemical returns.

GENERAL INFORMATION

All products represented in the Newcomer Supply catalog are intended only for in vitro laboratory use by qualified professionals. They are not intended for drug, cosmetic, food, agricultural, pesticide, or household use. Any use other than that specifically authorized voids any and all warranties.

SAFETY INFORMATION

For shelf life and storage temperature refer to individual product label. Chemicals should be handled only by qualified individuals trained in laboratory procedures and familiar with the potential hazards. Safety Data Sheets are available on our website, by email, or mail. Technical Memos describing procedural methods are available for our customers via our website, mail, or email.

LIMITED WARRANTY

NEWCOMER SUPPLY, INC. ("NEWCOMER") warrants only that products manufactured by NEWCOMER are as represented in the catalog, and that products sold under the NEWCOMER label meet the minimum published specifications as to chemical and physical properties at the time of sale. NEWCOMER is not responsible if age or conditions of shipment or storage alter the physical and/or chemical properties of any products. If any product does not meet the standards of this warranty, NEWCOMER will, at its sole option, either (A) replace the product or products that do not meet this warranty; or (B) refund the purchase price for the product or products that do not meet this warranty; *PROVIDED* the product or products which do not meet this warranty are returned to NEWCOMER for inspection within thirty (30) days of the Date of Invoice, and such inspection reveals, to the sole satisfaction of NEWCOMER, that the warranty has been breached. This warranty is exclusive. NEWCOMER specifically disclaims any and all other warranties, express or implied, including the implied warranties of merchantability, fitness for a particular purpose, non-infringement and otherwise. In no event will NEWCOMER be liable for any lost revenue, lost profit, lost data, or attorney fees, or for any special, indirect, consequential, incidental, or punitive damages, however caused and regardless of the theory of liability. In no event shall NEWCOMER'S liability, if any, whether in contract, tort (including negligence), or otherwise, exceed the purchase price actually paid for the product or products that fail to meet this warranty.

POSITIVE CONTROL SLIDES

PRODUCT INFORMATION

We have one of the largest selections of both histopathology and immunopathology control slides available. Also, we can accommodate special requests, such as tissue placement and specialty microscope slide glass. Additional charges may apply.

All control slides are on Superfrost® Plus.

All controls are cut in serial sections.

10/set = 10 unstained slides and 1 stained slide.

98/set = 98 unstained slides and 2 stained slides.

Please note the following: In human tissue unless otherwise indicated. All tissues are Formalin Fixed Paraffin Embedded (FFPE). All slides are air dried. Histopathology slides are cut at 4 microns, unless otherwise specified. Standard tissue placement is mid-high on slide. Histopathology control slides are not quality controlled for IHC methods, as such, we cannot guarantee antigenicity. The intended use of these control slides is to qualitatively assess the performance of the special stain. These controls are not intended for quantitative purposes. Review the supplied stained slides with your pathologist prior to using the unstained slides to ensure that the intended analyte of interest is acceptable.

Special Requests

We do offer the ability for our customers to make *special requests* on our histopathology control slide product line.

The most commonly fulfilled *special requests* are changes to the tissue placement, drying method, section thickness, and/or slide glass. When a *special request* has been applied to an order an **SR** is added to the end of the part number. Please see page 13 for more details.

Special Requests

We offer the ability for our customers to make *special requests* to our histopathology and immunopathology control slide products. The most commonly fulfilled *special requests* are changes to the tissue placement, drying method, section thickness, and/or slide glass. *Special requests* must be communicated each time an order is placed. For these orders an **SR** will be added to the end of the part number to signify the change. Because they are made after the order is placed, *special request* orders may take up to 2-3 weeks to manufacture.

Below are some of the most common *special requests*. If you do not find the option you are interested in please inquire with Technical Support.

Tissue Placement

The standard tissue placement is mid-high on the slide. Options for tissue placement are MIDDLE OF SLIDE and LOW ON THE SLIDE.

Drying Method

The standard drying method is air dried with the slide oriented horizontally. Options for special request drying are OVEN DRIED AT 60°C FOR 60 MINUTES and/or VERTICALLY DRIED.

Section Thickness (Additional charge will apply)

The standard section thickness for most of the histopathology and immunopathology control slides is 4 microns. Possible request...

NEW SECTION THICKNESS IN MICRONS

Slide Glass (Additional charge will apply)

The standard slide glass used is Superfrost® Plus. Options for special request slide glass are Red Control Box slides, other slides available from the Newcomer Supply catalog or customer supplied slides.

Custom Tissue Slides

Newcomer Supply Custom Tissue Slides feature an inventory of human and animal tissue slides for your custom histochemical and immunohistochemical (IHC) staining needs. Custom Tissue Slides are Formalin Fixed Paraffin Embedded (FFPE) sections with availability from a wide range of organs and a variety of disease states. Custom Tissue Slides are sold in sets of 10 unstained slides with one complimentary hematoxylin and eosin (H&E) stained slide included, all mounted on Superfrost® Plus slides. (Custom Tissue Slides that are designated as “Limited Availability” are sold in sets of 5 unstained slides and do not include a stained H&E slide.)

Your Custom Control Slide order can be further customized with choice of:

- Microscope slide, glass type
- Tissue placement
- Section thickness
- Drying options

Intended Uses:

- IHC validation
- Antibody development
- Student and teaching purposes
- Research
- Tissue type comparisons

Available Tissues:

- Human
- Human Abnormal
- Animal
- Animal Abnormal

Slides are cut per confirmed order, delivery time will be dependent on the custom options ordered.

We strive to assure the tissue meets the specifications we provide for pathological and histological characteristics. We cannot provide assurances that the tissue will be reactive in all applications.
