# 2. HAZARD(S) IDENTIFICATION

# 2.1 Classification of the substance or mixture

GHS Classification, (in accordance with 29 CFR1910.1200) Skin irritation, Category 2 Serious eye damage, Category 1 Specific Target Organ Toxicity – Respiratory System - Single exposure, Category 3

# 2.2 GHS Label elements

Signal Word DANGER

Pictogram

- Hazard Statement(s): • Causes skin irritation
- · Causes skin irritation
- · Causes serious eye damage
- May cause respiratory irritation
  May cause drowsiness or dizziness

# Precautionary Statement(s):

# **Prevention:**

- · Avoid breathing dust/fume/gas/mist/vapours/spray
- $\cdot$  Use only outdoors or in a well-ventilated area
- $\cdot$  Wash skin thoroughly after handling
- Wear protective gloves/protective clothing/eye protection/face protection **Response:**
- IF ON SKIN: Gently wash with plenty of soap and water
- Immediately call a POISON CENTER or doctor/physician
- Specific treatment: see first aid measures in section 4
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy
- . to do continue rinsing
- · If skin irritation occurs: Get medical advice/attention
- · IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
- $\cdot$  Call a POISON CENTER or doctor/physician if you feel unwell

# Storage:

- $\cdot$  Store in a well ventilated place. Keep container tightly closed.
- $\cdot$  Store locked up.

# Disposal:

- · Dispose of contents/ container to an approved waste disposal plant.
- 2.3 Description of any hazards not otherwise classified None

# SAFETY DATA SHEET (SDS)

Revision Date: 10/16/2017 Version 1.4

Part Number: 1331

# SAFETY DATA SHEET (SDS)

Revision Date: 10/16/2017

Version 1.4

# 2.4 >1% of mixture with unknown acute toxicity

None

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

# 3.2 Mixture

Hazardous Components

Compone	nt	Concentration
Name	Sodium Phosphate	
CAS-No.	7601-54-9	6%
Name	Potassium Phosphate	
CAS-No.	7778-53-2	5%

#### 4. FIRST-AID MEASURES

### 4.1 Description of necessary measures

#### Inhalation (breathing)

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

### **Skin Contact**

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. Immediately call a POISON CENTER or doctor/physician.

### **Eye Contact**

IF ON SKIN: Gently wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention.

# Ingestion (swallowed)

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician.

- **4.2** Most important symptoms and or effects, acute and delayed The most important symptoms/effects are presented in Section 2 and or Section 11.
- **4.3 Indication of any immediate medical attention and special treatment needed** No data available

#### 5. FIRE-FIGHTING MEASURES

# 5.1 Suitable extinguishing media

Carbon dioxide, dry chemical, water spray, alcohol-resistant foam.

- 5.2 Specific hazards arising from the substance or mixture No data available
- **5.3 Protective equipment and precautions for fire-fighters** Wear a positive-pressure self-contained breathing apparatus if necessary. Wear chemical resistant clothing as recommended by clothing manufacturer.

# 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

SAFETY DATA SHEET (SDS)

# Part Number: 1331

Revision Date: 10/16/2017

Version 1.4

Apply personal protective equipment (see Section 8). Use in a properly ventilated area. Avoid breathing vapors. Avoid skin contact. Avoid eye contact. Wash hands after use. In case of large spill, remove personnel to a safe area.

# 6.2 Methods and material for containment and cleaning up

Apply personal protective equipment (see Section 8). Contain spill. Prevent further leakage if possible and safe to do so. Ensure proper ventilation. For small amounts, wipe or absorb spill using inert material and dispose of according to local regulations. For large amounts, evacuate area and limit access. Prevent entry of material into sewage drains and confined areas. Dispose of any contaminated materials according to local regulations.

# 7. HANDLING AND STORAGE

# 7.1 Precautions for safe handling

Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing.

# 7.2 Conditions for safe storage, including any incompatibilities

Refer to Section 2.2 for proper storage temperature. Store the tightly closed container in a cool, dry, well-ventilated area.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

# 8.1 Control Parameters

Components with limit values that require monitoring at the workplace

Component	CAS-No.	Regulatory	Value	Parameters
Hydrochloric Acid	7647-01-0	OSHA PEL	С	5 ppm (7 mg/m <sup>3</sup> )
		NIOSH REL	С	5 ppm (7 mg/m <sup>3</sup> )
		NIOSH REL	IDLH	50 ppm (75 mg/m <sup>3</sup> )
		ACGIH TLV	С	2 ppm

# 8.2 Exposure Controls

# Appropriate engineering controls

Use in a properly ventilated area. Remove/wash before reuse contaminated clothing. Wash hands upon exiting work premises. Use product in an appropriately designated fume hood. Take measures to keep concentrations below acceptable limits.

#### 8.3 Personal Protective Equipment Eve/Face protection

Wear chemical safety goggles and/or a full face shield if splashing is possible. Keep eye wash fountain nearby.

# **Skin Protection**

Wear chemical-resistant gloves. Gloves should be resistant to components of product. Refer to glove manufacturer for appropriate type and glove thickness.

# **Body Protection**

No data available

# **Respiratory Protection**

# SAFETY DATA SHEET (SDS)

Part Number: 1331

Revision Date: 10/16/2017 Version 1.4

Respirators should only be used if the employer has implemented a written program that takes into account workplace conditions, requirements for worker training, respirator fit testing, and medical exams, as described in the OSHA Respiratory Protection Standard (29 CFR 1910.134).

Where the potential exists for exposure over 2 ppm: use a NIOSH approved full facepiece respirator with an acid gas cartridge which is specifically approved for hydrochloric acid. Increased protection is obtained from full facepiece powered-air purifying respirators. Leave the area immediately if (1) while wearing a filter or cartridge respirator you can smell, taste, or otherwise detect hydrochloric acid, (2) while wearing particulate filters abnormal resistance to breathing is experienced, or (3) eye irritation occurs while wearing a full facepiece respirator. Check to make sure the respirator-to-face seal is still good. If it is, replace the filter or cartridge. If the seal is no longer good, you may need a new respirator.

Where the potential exists for exposure over 20 ppm: use a NIOSH approved supplied-air respirator with a full facepiece operated in a pressure-demand or other positive-pressure mode. For increased protection use in combination with an auxiliary self-contained breathing apparatus or an emergency escape air cylinder.

Exposure to 50 ppm is immediately dangerous to life and health. If the possibility of exposure above 50 ppm exists: use a NIOSH approved self-contained breathing apparatus with a full facepiece operated in a pressure-demand or other positive-pressure mode equipped with an emergency escape air cylinder. In case of emergency, entry into or escape from unknown concentrations, select the highest level approved respiratory protection available.

#### Other Information None

# 9. PHYSICAL AND CHEMICAL PROPERTIES

# 9.1 Information on basic physical and chemical properties

······································	
Physical state	Clear, colorless liquid
Odor	No data available
Odor threshold	No data available
рН	No data available
Melting point/freezing point	No data available
Initial boiling point and boiling range	No data available
Flash point	No data available
Evaporation rate	No data available
Flammability (solid, gas)	No data available
Upper flammability or explosive limits	No data available
Lower flammability or explosive limits	No data available
Vapor pressure	No data available
Vapor density	No data available
Relative density	No data available
Solubility(ies)	No data available
Partition coefficient: n-octanol/water	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Viscosity	No data available

# **10. STABILITY AND REACTIVITY**

10.1 Reactivity

No data available

10.2 Chemical stability

No data available

www.newcomersupply.com

SAFETY DATA SHEET (SDS)

Part Number: 1331

Revision Date: 10/16/2017 Version 1.4

- **10.3 Possibility of hazardous reactions** No data available
- **10.4** Conditions to avoid No data available

# 10.5 Incompatible materials

Hydrochloric acid may react explosively with alcohols; hydrogen cyanide; potassium permanganate; sodium; and tetraselenium tetranitride, and may ignite on contact with fluorine; hexalithium disilicide; metal acetylides and carbides. Hydrochloric acid reacts with oxidizing agents (such as perchlorates, peroxides, permanganates, chlorates, nitrates, chlorine and bromine) to form toxic chlorine gas and reacts violently with strong bases (such as sodium hydroxide and potassium hydroxide). Hydrochloric acid will attack many metals (such as copper, brass, and zinc) to release flammable and explosive hydrogen gas. Hydrochloric acid will react with aldehydes and epoxides to cause violent polymerization (self-reaction). Hydrochloric acid corrodes steel.

# **10.6 Hazardous decomposition products** No data available

#### **11. TOXICOLOGICAL INFORMATION**

# **11.1** Information on toxicological effects Inhalation exposure

Hydrochloric acid: It has been reported that 50 to 100 ppm for 1 hour is barely tolerable and that 35 ppm causes irritation of the throat. Acute inhalation exposure may cause coughing, hoarseness, inflammation and ulceration of the respiratory tract, chest pain, and pulmonary edema in humans.

# **Oral exposure**

Hydrochloric acid: Acute oral exposure may cause corrosion of the mucous membranes, esophagus, and stomach, with nausea, vomiting, and diarrhea reported in humans.

#### **Dermal exposure**

Hydrochloric acid: Dermal contact may produce severe burns, ulceration, and scarring.

# Skin corrosion/irritation

Hydrochloric acid is corrosive to the eyes, skin, and mucous membranes.

#### Serious eye damage/irritation

Hydrochloric acid is corrosive to the eyes, skin, and mucous membranes.

**Respiratory or skin sensitization** No data available

Germ Cell mutagenicity No data available

#### **Reproductive toxicity**

In rats exposed to hydrochloric acid by inhalation, severe dyspnea, cyanosis, and altered estrus cycles have been reported in dams, and increased fetal mortality and decreased fetal weight have been reported in the offspring.

Specific target organ toxicity - single exposure No data available

Specific target organ toxicity - repeated exposure No data available

**Aspiration hazard** 

Part Number: 1331

No data available

# Acute toxicity

LCLo human 1300 ppm/30 minutes LC50 rat 3124 ppm/1 hour LC50 mouse 1108 ppm/1 hour

# Carcinogencity

IARC: Hydrochloric Acid: Group 3 Carcinogen - not classifiable as to its carcinogenicity to humans. NTP: None of the components are listed OSHA: None of the components are listed

# **Additional information**

RTECS: No data available

#### **12. ECOLOGICAL INFORMATION**

- 12.1 Ecotoxicity No data available
- 12.2 Persistence and degradability No data available
- **12.3 Bioaccumulative potential** No data available
- 12.4 Mobility in soil No data available
- **12.5** Other adverse effects No data available

#### **13. DISPOSAL CONSIDERATIONS**

# 13.1 Waste disposal methods

# Contents

Dispose of contents in a safe manner to comply with local, state and federal regulations. Contact a licensed professional waste disposal service to dispose of this material.

# **Contaminated packaging**

Dispose of packaging in a safe manner to comply with local, state and federal regulations. Contact a licensed professional waste disposal service to dispose of this material.

# 14. TRANSPORT INFORMATION

#### 14.1 DOT (US)

UN-Number	No data available
Proper shipping name	No data available
Hazard class	No data available
Packing group	No data available
Environmental hazards	No data available

#### **15. REGULATORY INFORMATION**
