

# Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Revision date: 08/16/2019 Version: 2.0

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Product name : Davidson Marking System Lime Dye all sizes

Product form : Mixtures

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture : Dispersion

### 1.3. Details of the supplier of the safety data sheet

Bradley Products, Inc. 1700 West 94th Street Bloomington, MN 55431

E-mail: dms@bradleyproducts.com Web site: www.bradleyproducts.com

Phone: 952-881-1430 Toll-free: 800-325-7785 Fax: 952-881-1873

### 1.4. Emergency telephone number

Emergency number : 800-325-7785

### **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

### **GHS-US** classification

Not classified

### 2.2. Label elements

# **GHS-US** labelling

No labelling applicable

### 2.3. Other hazards

No additional information available

## 2.4. Unknown acute toxicity (GHS US)

No data available

## **SECTION 3: Composition/information on ingredients**

### 3.1. Substances

Not applicable

### 3.2. Mixtures

ĺ	Name	Product identifier	%
	Contains no hazardous ingredients at levels requiring disclosure by the OSHA Hazard Communication Standard (29 CFR 1910.1200)		

<sup>\*</sup>In accordance with paragraph (i) of the OSHA Hazard Communication Standard (29 CFR §1910.1200), the specific chemical identity or exact weight % has been withheld as a trade secret

# **SECTION 4: First aid measures**

## 4.1. Description of first aid measures

First-aid measures general : If exposed or concerned, get medical attention/advice. Show this safety data sheet to the

doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an

unconscious person.

First-aid measures after inhalation : IF INHALED: Remove to fresh air and keep at rest in a comfortable position for breathing.

First-aid measures after skin contact : IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at

least 15 minutes.

First-aid measures after eye contact : IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact

lenses if present and easy to do so. Continue rinsing.

First-aid measures after ingestion : IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison

control center. Get medical attention if you feel unwell.

### 4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries : Not expected to present a significant hazard under anticipated conditions of normal use.

Symptoms/injuries after inhalation : May cause respiratory irritation

## Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Symptoms/injuries after skin contact : May cause skin irritation.

Symptoms/injuries after eye contact Direct contact with eyes is likely to be irritating.

Symptoms/injuries after ingestion : May cause gastrointestinal irritation.

## Indication of any immediate medical attention and special treatment needed

No additional information available.

# **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Suitable extinguishing media : Foam. Water spray. Dry chemical. Carbon dioxide. Sand.

: Do not use a heavy water stream. Unsuitable extinguishing media

### 5.2. Special hazards arising from the substance or mixture

Fire hazard The product is not flammable. Reactivity : No additional information available.

5.3. Advice for firefighters

Firefighting instructions Use water spray or fog for cooling exposed containers. Exercise caution when fighting any

chemical fire. Do not dispose of fire-fighting water in the environment.

Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection.

## **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

: Ventilate area. Keep upwind. Spill should be handled by trained clean-up crews properly General measures

equipped with respiratory equipment and full chemical protective gear (see Section 8).

6.1.1. For non-emergency personnel

Protective equipment : Wear Protective equipment as described in Section 8.

: Evacuate unnecessary personnel. **Emergency procedures** 

For emergency responders

: Use personal protective equipment as required. Protective equipment

### 6.2. **Environmental precautions**

Avoid release to the environment. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

## Methods and material for containment and cleaning up

For containment Contain any spills with dikes or absorbents to prevent migration and entry into sewers or

streams.

Methods for cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect

spillage. This material and its container must be disposed of in a safe way, and as per local

legislation

#### 6.4. Reference to other sections

See Sections 8 and 13

# **SECTION 7: Handling and storage**

### Precautions for safe handling

Precautions for safe handling Do not handle until all safety precautions have been read and understood. Handle in

accordance with good industrial hygiene and safety procedures. Provide good ventilation in process area to prevent formation of vapour. Wash hands and other exposed areas with mild

soap and water before eating, drinking or smoking and when leaving work.

### 7.2. Conditions for safe storage, including any incompatibilities

Storage conditions Store in original container. Keep the container tightly closed. Store in a well-ventilated place.

Keep cool.

Maximum storage period 24 months

Storage temperature 4.5 - 37.7 °C (40 - 100 °F)

## **SECTION 8: Exposure controls/personal protection**

### 8.1. **Control parameters**

No data available

# **Exposure controls**

Appropriate engineering controls Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust

ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate

ventilation, especially in confined areas.

# Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Personal protective equipment Gloves. Protective goggles.

Hand protection Use gloves chemically resistant to this material when prolonged or repeated contact could

occur.

Eye protection Use eye protection suitable to the environment. Avoid direct contact with eyes.

Skin and body protection Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection Use NIOSH (or other equivalent national standard) -approved dust/particulate respirator. Where vapor, mist, or dust exceed PELs or other applicable OELs, use NIOSH-approved respiratory

# **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

Physical state : Liquid

Color : Green. Yellow. Odor Ammonia-like. Odor Threshold No data available

Relative evaporation rate (butylacetate=1) No data available No data available Melting point

No data available Freezing point Boiling point No data available Flash point No data available Auto-ignition temperature No data available No data available Decomposition temperature Flammability (solid, gas) No data available No data available Vapour pressure

Relative vapour density at 20 °C No data available Relative density No data available Density 1.15 - 1.37 g/ml Solubility Water: dispersable No data available Log Pow No data available Log Kow

Viscosity, kinematic No data available Viscosity, dynamic No data available Explosive properties No data available No data available Oxidising properties No data available **Explosive limits** 

### Other information

No additional information available

# **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

No additional information available.

### 10.2. Chemical stability

Stable under normal conditions.

#### 10.3. Possibility of hazardous reactions

None known.

### 10.4. Conditions to avoid

Direct sunlight. Extremely high or low temperatures.

### 10.5. Incompatible materials

Strong acids. Strong bases.

#### 10.6. Hazardous decomposition products

Carbon oxides (CO, CO<sub>2</sub>). Nitrogen oxides. Copper oxides. Chlorine.

## Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

## **SECTION 11: Toxicological information**

11.1. Information on toxicological effects

Acute toxicity : Not classified

Skin corrosion/irritation : Not classified

pH: 8.5 - 9.5

Serious eye damage/irritation : Not classified

pH: 8.5 - 9.5

Respiratory or skin sensitisation : Not classified
Germ cell mutagenicity : Not classified
Carcinogenicity : Not classified
Reproductive toxicity : Not classified
Specific target organ toxicity (single exposure) : Not classified

Specific target organ toxicity (repeated

: Not classified

exposure)

Aspiration hazard : Not classified

Symptoms/injuries after inhalation : May cause respiratory irritation.

Symptoms/injuries after skin contact : May cause skin irritation.

Symptoms/injuries after eye contact : Direct contact with eyes is likely to be irritating.

Symptoms/injuries after ingestion : May cause gastrointestinal irritation.

# **SECTION 12: Ecological information**

### 12.1. Toxicity

Ecology - general : No data available.

opper (7440-50-8)	
LC50 fish 1	< 0.3 mg/l Pimephales promelas (96 hr)
EC50 Daphnia 1	0.03 mg/l Daphnia magna (48 hr)
LC50 fish 2	0.052 mg/l Oncorhynchus mykiss (96 hr)

# 12.2. Persistence and degradability

No additional information available

### 12.3. Bioaccumulative potential

No additional information available

## 12.4. Mobility in soil

No additional information available

### 12.5. Other adverse effects

No additional information available

## **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

Waste treatment methods : Obtain the consent of pollution control authorities before discharging to wastewater treatment

plants.

Waste disposal recommendations : Dispose in a safe manner in accordance with local/national regulations. Do not allow the

product to be released into the environment.

## **SECTION 14: Transport information**

In accordance with DOT Not hazard for transport

**Additional information** 

: No supplementary information available

**Overland Transport** 

ADR : Not regulated

Transport by sea

IMDG : Not regulated

Air transport

IATA : Not regulated

# Safety Data Sheet

Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

# **SECTION 15: Regulatory information**

## 15.1. US Federal regulations

Davidson Marking System Lime Dye all sizes			
All chemical substances in this product are lis or are exempt	chemical substances in this product are listed in the EPA (Environment Protection Agency) TSCA (Toxic Substances Control Act) Inventory are exempt		
SARA Section 311/312 Hazard Classes	Delayed (chronic) health hazard Fire hazard		
Copper (7440-50-8)			
CERCLA RQ	5000 lb		
Section 313	Listed on US SARA Section 313		

### 15.2. International regulations

No additional information available.

## 15.3. US State regulations

This product does not contain any substances known to the state of California to cause cancer and/or reproductive harm

- U.S. New Jersey Right to Know Hazardous Substance List
- U.S. Pennsylvania RTK (Right to Know) List
- U.S. Massachusetts Right To Know List

# **SECTION 16: Other information**

Indication of changes : Revision 1.0: New SDS Created.

Revision date : 12/06/2016
Other information : Author: BCS.

NFPA health hazard : 1 - Materials that, under emergency conditions, can cause

significant irritation.

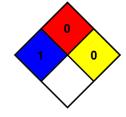

NFPA fire hazard : 0 - Materials that will not burn under typical dire conditions,

including intrinsically noncombustible materials such as

concrete, stone, and sand.

NFPA reactivity : 0 - Material that in themselves are normally stable, even

under fire conditions.

**HMIS III Rating** 

Health: 1Flammability: 0Physical: 0Personal protection:
